

August 13, 2021

Timber Ridge family,

I need to inform you that we had a Timber Ridge resident test positive for COVID-19 last night. Their guardians and all staff who had close contact with this individual in the last 48 hours have been notified. We will be testing all ACTR residents and staff today and if there are any additional cases we will let you know. In accordance with the latest guidance from IL Department of Public Health and Tazewell County Health Department we will continue to test all staff and residents every 7 days until we have 14 days with no new positive cases. As has been our practice we will notify you only if the test results are positive, so if we do not contact you today your loved one tested negative.

Per guidance from IDPH and TCHD we are pausing all visits to the Timber Ridge facility until we have completed our first round of testing today. If we do not have any additional positive COVID cases we will be able to resume visits as before. We will send out another notification when that is able to happen. If you were planning to take your loved one on a home visit that can proceed as planned if you desire, we will just need to meet you at the door until we are cleared to resume visits in the building.

Please be aware that when visits do resume we are again requiring all visitors to wear a face covering at all times while in the Timber Ridge building.

Please feel free to contact us if you have any questions or concerns. Thank you for your continued patience and prayers.

Thanks,

Darrell Stoller
