

December 15, 2020

Timber Ridge Team,

As of this morning (Tuesday 12/15) we now have 15 residents who are positive for COVID-19. We have set up the 600 hall as a COVID unit on the south end and we still have the two room COVID unit set up in the 300 hall.

If you notice any resident with COVID-like symptoms please notify nursing immediately.

Please continue to wear all of your PPE and wash your hands often. KN95 masks and face shields should be worn when around residents.

I would encourage you to continue to spend one on one time with residents as much as possible during this time. You can take a resident who has tested negative one at a time to a common area near their room and spend one on one time with them there to give them a chance to get out of their room, but avoid any group activity and please do not leave them unattended out of their room. As much as possible DSP's should limit your interactions to be with those residents in your hall only and avoid travel from end to end of the building.

Thanks for all you do,

Darrell Stoller
